

Jr. Level Civil Engineer – Excellent Learning Environment

Would you like to work for a growing engineering firm where you can apply what you have learned in school to real-life situations?

The Job:

Peralte-Clark, LLC is looking to hire a full-time recent graduate with a B.S. in Civil Engineering, 0-2 years of experience, and an FE or the ability to obtain an FE soon. The ideal candidate is motivated, diligent, takes pride in their work, and aspires to learn. Prior experience with MicroStation and Microsoft Office is preferred, but not required. Peralte-Clark offers young engineers the ability to contribute and be valuable members of the team.

About the Firm:

Peralte-Clark is a start-up civil engineering firm that was founded by two industry veterans who bet on themselves that they could do it better. We aspire to be a forward-looking, agile firm that is on the leading edge of the industry. In order to accomplish this, we need bright, young engineers that we can teach and mold into the talent that will drive us into the future.

We focus on transportation projects including roadway, intersection and highway design, as well as associated traffic and drainage studies.

At Peralte-Clark, we pride ourselves on being a true team with real camaraderie. We believe in the vision of the firm and are committed to helping build something special. You will often find us grilling out on our patio for lunch or celebrating project victories over drinks after-hours.

Our office is located in downtown Arlington Heights, which is a relaxed 40-minute train ride from downtown Chicago's Ogilvie Station. Due to our rapid growth and increased job load, we are looking to expand to a downtown office in the near future. We offer competitive pay, excellent benefits and a relaxed work environment.

If you are interested in being a part of something truly special and helping us grow into a thriving company, contact John Clark at john.clark@peralte-clark.com
